FIG 18

The screenshot displays the Visual Studio debugger's Call Stack window. The stack trace shows the following frames from top to bottom:

- Frame 1:** `00401000 CreateTest.exe`. The exception is `HEException` at `c:\0.c:100`. The function is `CreateTest.exe`.
- Frame 2:** `77D40000 KERNEL32.dll`. The exception is `HEException` at `c:\0.c:100`. The function is `Kernel32.dll`.
- Frame 3:** `00401000 CreateTest.exe`. The exception is `HEException` at `c:\0.c:100`. The function is `CreateTest.exe`.

The 'Hit exception' column shows the exception type (HEException) and the instruction pointer (c:\0.c:100). The 'Call stack' column shows the function names (CreateTest.exe, KERNEL32.dll, CreateTest.exe). The 'Hit exception' column shows the exception type (HEException) and the instruction pointer (c:\0.c:100). The 'Call stack' column shows the function names (CreateTest.exe, KERNEL32.dll, CreateTest.exe). The 'Hit exception' column shows the exception type (HEException) and the instruction pointer (c:\0.c:100). The 'Call stack' column shows the function names (CreateTest.exe, KERNEL32.dll, CreateTest.exe).
